Top Pick—Intact Financial, AltaGas & Boston Scientific are our “Top three picks for 2026”; + – New addition; M – Manufacturing; R – Resources; C – Consumer; F – Finance; U – Utilities; **—split 10-for-1 on June 6, 2022; ***—split 50-for-1 on June 26, 2024.

Understanding our recommendations: Power Buy—These stocks are our top choices for new buying now. We feel each currently offers the best combination of fundamentals (earnings, sales, cash flow and so on) plus external factors (industry trends and the current share price) to give it a chance of above-average gains. **Buy**—high-quality stocks with strong growth prospects. However, they are likely to grow at a slower rate than our Power Buys. **Sell**—these are stocks that no longer inspire our confidence. As Power Growth Investor focuses on maximizing profits for aggressive investors, we prefer to sell poorly performing stocks instead of holding them and waiting for a rebound. **TP**—Take Profits; these are more aggressive stocks that have given us a quick return and we therefore recommend investors lock in a gain by selling all or part of their holdings. That also frees up cash for new investment in our Power Buys.
